PUBLIC LET IT BE.

THE EVENING WORLD publishes to-day the original deed of PETER G. STUYVESANT ceding to the city of New York, "exclusively for the purpose of a Public Square," the park now called by his name,

By this instrument the city authorities, a parties of the second part, covenanted promised and agreed to maintain the park as "public square," and "to no other use intent and purpose whatsoever."

For thirty years Stuyvesant Park has been closed to the public at sundown, as though it were a private preserve, maintained for the comfort and pleasure of the few rich families whose dwellings front upon it. It is time to open the gates.

A STRONG COMBINATION.

With THE WORLD and Coroner MESSEMER and the District-Attorney's office and public sentiment moving against the bobtail car, it would seem that the death-dealer must go. As corporations are proverbially obtuse and

stubborn, it would be well, however, if the Governor would recommend to the Legislature the adoption of a mandatory measure.

The employment of conductors will not only save human life and limb from danger, but it will give work to more men, prevent blockades and protect passengers from the nuisance of doing corporation work besides paying for their ride.

The jigger's jig is nearly up.

THE PIRST STEP. "It is the first step that costs," says the

proverb. Yes, and if it is a false step it frequently costs reputation, happiness, and even life

A young married woman in New Jersey, the mother of three pretty children, is to-day a fugitive in shameful disgrace. Her first false step was in receiving and answering letters from a casual acquaintance. They were "mild" at first, warmer afterwards, and the usual sequel of sin and elopement

Girls and young men are every day entering upon a path that leads to ruin. The oldfashioned straight and beaten track of duty is safest and best. There are snares and pitfalls in the by-paths.

A prominent Brooklyn Democrat has come out for Hannson and Monron. The milk in his eccount is scapsuds. He is a big scap manufacturer, and wants the people to continue to pay taxes for the privilege of keeping elean.

Wall street would be happier if it knew whether Gardener Gould were most devoted to the watering-pot or the pruning-knife.

The Tammany braves-and the b'hoys, too are in fighting trim. The Fourteenth District meeting last night was a rattler.

Something dropped at Philadelphia yester day. 'Twas a game from Giants to Phillies Better play and better luck to-day.

That is a long and a sharp pole with which the Governor is stirring up the Legislature. Squirming is a natural result.

Another prize fight with bare knuckles to bloody "finish" shows how the laws are no enforced in this vicinity.

You are mistaken about that "curious signature " as it is not a signature, but a map, You will remember that Mark Twain, in his Innocents Abroad," had a map of Paris in which the River Rhine was shown as running through the city, with, I think, Westchester County on one side. A guide I had in Europe, to whom I showed this map, was very much puzzled over it, and thought Americans knew very little when publishing such a map, as he thought, for the use of tourists. The map you publish in THE EVENtourists. The map you publish in The Evening World is even more starting in its possible hidden meaning than Mark Twain's

left hand corner of the map, the starting
point represents the Saratoga Staton of

THE PARK DEED.

A Mistake of Thirty Years' Standing Rectified.

Stuyvesant Park Is Public Not Semi-Private Property.

If It Is Not Maintained as a Public Square It Reverts to the Heirs-Generous Old Peter Stuyvesant Left No Manner of Doubt on That Point-There Is No Reason, Whatever, for Closing the Gates at Sundown-It Is Possible that the City Has Already Vitinted Its Title-Open the Gates at Once - A Cull for a Public

For thirty or more years thousands and thousands of the common people in the vi-cinity of Suyvesant Park have been bamboozled into the belief that the property was semi-private, and that it was only through the generous impulses of the semi-owners and the kind offices of the Park Commission that it was opened to them at all. This impression had been inquestriously encouraged by the handful of wealthy residents on the borders of the park, who did not wish to have the seclusion of their neighborhood invaded by the people. So the gates have been religiously closed at sundown, despite the fact that the evening is the only time when the majority of the hard-working people can visit his pleasant oasis of green.

THE EVENING WORLD explodes this preension conclusively to-day by printing below the original deed of Peter Stuyyesant It conveys the property to the people of New York on the distinct condition that it shall be used forever as a PUBLIC SQUARE. The used forever as a PUBLIC SQUARE. The fact that it has been managed heretofore as semi-private property may endanger the people's title, as the deed provides to the diversion of the park from the object specified it is to revert to the Stuyvesant heirs. It is the duty of the Park Commission without delay to open the gates in the evening, and to conduct the park in all respects as a PUBLIC SQUARE. It belongs to the people precisely the same as Madison and Washington squares.

squares.

Arrangements are being made for a public meeting in Stuyvesant Hall to take action in favor of opening the gates. It appears that Wednesday evening next is the earliest date on which the hall can be secured for the purpose. A prominent resident of the neighborhood will preside. Particulars will be announced later.

THE STUYVESANT PARK DEED. The deed is herewith given substantially in full:

LABOR'S ANNUAL HOLIDAY.

FROM THE CITY'S WHIRL. Grand Celebration by the Brotherhood of Trades - The Central Labor Union's DRIFT CAUGHT BERE AND THERE BY

The Central Labor Union committees are making great preparations for Labor Day, Sept. 8. The grand parade will probably be the largest ever held. It will represent all the skilled labor trades and many occupations not classed as such.

The Central Labor Union has issued proclamation calling upon labor to honor the day, of which 10,000 copies will be distributed throughout the city. It is as fol-

Headquarters Central Labor Union, 1 146 Etioner Street. 146 Etioner Street. 147 To the Tetters of New Fork and Vicinity:
Again the Central Labor Union greets you!
For the seventh time we prociaim a day of rest and relaxation for the slaving thousands of this throbbing mart. We call on you to put said your implements of toil on the 3d of Septemuer and join us in the greatest fistival of the year.
And we speak to you this time with more courage and pride than ever before, because during the current labor year we have gathered the ripened fruit of our own planting. The wisdom of our early proposition to dedicate one day in the year to labor has been seen; the rulers of the State have recognized our right; the majesty of the law has been won to our ouse.
Our great tratification at this glorious result of years of uphill struggling against the doubts and disparsagements of onlookers need not be dwelt upon. It is our simple duty to urge an appropriate cele ration of this special evidence of organized labor's progress.

Among the gaudily colored paroquets in the bird-house is a gray parrot, presented by Miss Wells, of this city.

Mr. F. S. Shurick, of Parke sburg, W. Va., has contributed a red fox, who keeps up a perpetual walk around his narrow cage, chating at being deprived of his liberty.

Nor is the menagerie increased by outsiders only. A fallow deer and an Angora goat have been born during the past week.

The monkey-house, which is ever the centre of attraction, contains a new visitor—a black spider monkey, placed on exhibition by Mr. John King, jr., of this city.

The little fellow has only arrived from South America recently, and spends the most of his time crouched up on his trapeze, eyeing the visitors with evident consternation.

upon. It is our simple duty to urge an appropriate cele-ration of this special evidence of organized labor's progress.

The new legal holiday will be observed all over the Empire State; but we in New York City are bound to see that the coming demonstration shall surpass anything of the kind hitherto done. Therefore we urge all the labor organizations of this vicinity to some forward and take part in this exhibition of the strength and unity of labor's forces in this section of the State.

Let the sentiment that is daily growing and extending throughout the industrial life of our city colaminate in a procession on Laber Day that shall be a significant indication of the purpose and power of our political counterpart on Election Day. Let every wage worker come out on that day and help to swell the ranks of this trade under review, and let every organization lend its induence to the impression an Mass molage and parade of all the trades in this great metropolis must make upon the public whose opinion is so potent for our weifare or adversity.

No date on the calendar is so important to us, so dear to the people, as Labor Day. Other holidays—many of them reminders of sectional hate and bloody war and human sacrifice—pale in the light of tals narbuger of peace and good wil.

Let us commemorate the day in a bettting manner, with a dispisy of enthusiasm appropriate for such an occasion, and let it be for labor's nosts the bractical inauguration of an era of reconciliation, recognition and reward.

The co-operation of every division of labor to servestly requested—Krights of Labor, trade unionists, all protective and benevolent organizations of working men and women.

Shoulder to shoulder we will march before the stronghold of capitalism, a mighty legion with lofty aspyrations, clear and rational purposes, due intelligence, and determination unconquerable; thand in hand we will enjoy the pleasures of the fr ternal festival, and when the day close it will find us yowing undarging fellowship on all issues and occasions of

THOSE PUZLLES. The Printer's Pl Straightened Out and Newsboy's Enigma Answered. One Little Girl Melves Both.

Inclosed I mail the solution of the Printers Pi Puzzle" and the newsboy's enigma. I am thirteen years of age, and constant reader of your paper. Since I began reading your paper I have received more reading your paper I have received more scoldings than ever before. I get so wrapped up in anything interesting I do not hear when I am spoken to or called, and it is a habit I cannot break myself from. And as there is always something interesting in your columns I don't think I should be blamed. I agree most heartily with "E. Lectric" in the transposition:

A Complimentary Puzzler.

To the Editor of The Evening World:

I think that sentence is rightly applied, for it is the brightest and cheapest paper of the day. What other paper, I'd like to know, who would be so willing to furnish a doctor to the poor babies? The newspapers in general preach but don't practise. The puzzle is THE EVENING WORLD, the best, the brightest and the cheapest. ESTELLE RAPHABL.

McGowan's House Is His Castle.

[SPECIAL TO THE EVENING WORLD,]
ELIZABETH, N. J., July 19. — Patrick Mo-Gowan, a widower, owns a house and lot worth \$1,000 on West Second street, Elizabeth-The property was sold by the Comptroller March 10, at public auction, for an unpaid tax balance of 96 cents. The purchaser last night per-sonally notified McGowan, who knew nothing of the sale, that he had bought the place. McGowan selized a loaded revolver and chased the new owner out of the house. He has intrenched h mself in the building, and with a pail of beer by his side and his gun in hand, defies anybody to oust him.

NEW HAVEN, Conn., July 19.—The city is laughing this morning over the way Daniel Fox, Superintendent of the Congregational Church Sunday school, and his colored scrub woman, Mrs. Henry school, and his colored scrub woman, arm. Heary Jay, were greeted last night when they emerged from his office at 10 o'clock.

Brother Fox was astounded and Mrs. Jay fairly turned ale when the two piles of red light, ignited by two of the young men who had been watching them, flashed a brilliant crimson light on the scene. Cheers and hoots followed the pair as they speedlly betook themselves out of the way.

Five Thousand Saw Him Hanged. RALEIGH, N. C., July 20.—Will Houston, who shot and killed a negro woman last May, was hanged at Winston yesterday. The execution manged as winsion yesterday. The execution was witnessed by several thousand people. Houston slept well last night and this morning ate a hearty speakfast. He met death coolly. The srangements for the execution were perfect and everything was done desently and in order. Good Work of "The Evening World's" Physician Yesterday—A Few of the Many Little Patients Who Received His Attentions-Distributing Infants' Fond and Excursion Tickets as Well as Medicine-

It was raining hard yesterday when "THE EVENING WORLD's physician" started put ander the friendly protection of a large umbrella, to visit his little patients.

The two Keenan children, of No. 5 Batavia street, were first revisited, and were found somewhat improved, due largely to the change of food. At the last visit the Doctor found the chil-

dren living on milk of very bad quality, and

so prescribed Mellin's Infant Food, a considerable quantity of which had been donated by the manufacturers for this undertaking. Mrs. Keenan and husband, with seven children, live in two rooms, and have seen many dark, dreary days. She has had great difficulty in collecting small amounts of money due her for laundry work for apparently well-to-do people. One family in good

Among several patients revisited vesterday was little Stevie Hayes, of 56 Cherry street. He is especially mentioned because of the marked improvement, showing the result of timely treatment. He will probably be entirely well in a few days.

It is the doe or's intention to visit each paient until well enough to be discharged. Another mother in the same house asked the reporter if the doctor would please see her child. The request was granted with pleasure. This was a little girl four years old, who had had a cough for a long time. The father, who is an engineer, had been out of employment for a long time, and was consequently too poor to pay for medical services. But he has within two weeks obtained a position, and with this temporary help will doubtless be able to "get on his feet again." Everything about the apartment gave evidence of better times in the past.

The physician while at 190 Cherry street was requested to see a child on the top floor, but this baby was found to be under the skilful treatment of a physician whom the parents by rigid self-denial were able to retain. her child. The request was granted with

charge whatever is made when The Evening World physician notes that the people are not able to pay. When they are in a position to pay something a charge of ten cents is made by the dispensary.

At 289 Front street reporter and physician groped their way through pitch-dark halls and up rickety, tumble-down stairs to the top floor of the house. No children there—perhaps they were too late, because it seemed impossible that children could live in such a place a week without sickening and dying. Sinks were leaking and running over floors, and vermin and disease held undisputed sway. Such a state of things should be improved, but who will do it?

The Evening World, on behalf of tired mothers and sick babies, thanks Post's Rocksway line for a package of passes on their steamers. They will be distributed where they will do the most good.

A STUBBORN MORNING FIRE. Plames in Dolle's Furniture Factory Strike Terror Through Crowded Tenements.

A fire which lit up the west side for several nours and called out all the fire engines below Forty-second street broke out in Dolle's big furniture factory, 156 West Fifty-seventh street, at 12.30 this morning. The flames were seen breaking out of a window in the fifth story by Policeman Man-

ning, of the Thirtieth street squad, but before the first hose was in position the three upper stories were blazing fiercely. The floors were filled with furniture in various stages of manufacture and a large stock of resin, glue and varnish fed the flames.

The fire was a very stubborn one, and it was not until 2.30 that it was under control. The damage to stock and building was from \$20,000 to \$25,000. The gas-fixture factory of Schneider, Campbell & Co. was damaged by falling dibris and water, and the Shiloh Presbyterian Church, immediately in the rear of Dolle's factory, was also slightly injured.

jured.

The burning building was surrounded by crowded tenements, mostly occupied by colored people. They hurried from their beds and remained in a high state of alarm all the time. Sixteen horses in a stable near by became frenzied by the heat and were with difficulty rescued by the firemen.
